

languages

Patrick Mitchell

I think that to learn languages ~~is~~ are main Subjects because they can be useful to you when you grow up and make a career if you have the opportunity to work abroad. Also languages are good because they broaden your mind and are very useful to learn and very interesting. The languages we focused on were Arabic and Chinese and

I found them both great to learn

At the University we also looked at the carnival which is in Italy where people dress up and pretend to be rich. We also looked at Indian and Arabic market and looked at their skin marks and wore some Indian and Arabic clothes

While we were at the university we were taught how to dance in the Arabic ballet style. We used a wooden stick as a dance prop and learnt many moves and noises to dance with. I found it excellent.

In the language market we were taught how to make origami frogs and made one by ourselves. This is a good example of what the Chinese people do in their spare time and is very fascinating.

This is my name in Chinese and Arabic.
